## Summary

**Full Stack Developer** and **UI Designer** with over 20 years of experience, **focused on Front-End development**. I bring creativity and technical versatility to every project.

## Tech stack & Tools

**Front-End:** Html | Css | Tailwind  
JavaScript | TypeScript | React.js |  
Next.js | Redux

**Back-End:** Node.js | Express  
PostgreSQL | MySQL | Sequelize

**Design and Collaboration:** Figma  
Git | GitHub | Scrum

**Other Techs & Tools:** Php | Photoshop  
Illustrator | WordPress

## About me

I am a Graphic Designer and Developer with over two decades of experience, specializing in Front-End development.

I have worked on projects for studios in the U.S., Spain, and Argentina, which has broadened my perspective and equipped me with a strong capacity for adaptation.

With expertise in Graphic Design, UI Design, and Brand Development, I bring a creative and multidisciplinary approach to my projects.

In an ever-evolving technological landscape, my goal is to stay current and continue growing as a professional, contributing my skills and experience to challenging projects and collaborative teams.

## Work experience

### Freelance - Concordia (feb 2024 - Present)

Worked independently on a variety of projects ranging from brand design to full-stack web development. Delivered custom websites, mobile-first interfaces, and visual identities for small businesses and entrepreneurs. Involved in every stage of the process — from concept to launch — adapting to diverse industries and client needs.

### Latitur SAS - San Martín de los Andes (nov 2021 - dec 2023)

Revamped the user interface, restructured the style sheets, and familiarized myself with Angular, as a large part of the CMS was developed with this technology. I also developed standalone components in React for content management. Additionally, I was responsible for designing graphics for public display.

**Tech stack:** Html | Css | Bootstrap | Js | React | Angular | Figma | Illustrator | Photoshop

### Estudio 22 - Buenos Aires (2010 - 2021)

I built my personal project, E22, where I worked for my own clients and collaborated with studios in the U.S. and Spain. My focus was always on Web Design and Graphic Design. During this period, I dedicated myself to creating creative and functional solutions, ranging from user interface design to full website development.

**Tech stack:** Html | Css | Js | Php | MySQL | WordPress | Photoshop | Illustrator | Figma

## Creativat - Tarragona (2008 - 2020)

I specialized in using Macromedia Flash and implemented many websites with this technology. As its popularity declined over the years, I transitioned exclusively to UI Design. Additionally, I participated in branding development on several projects.

**Tech stack:** Html | Css | Js | Flash | Php | MySQL | Photoshop | Illustrator

## Nexions Solutions - Buenos Aires (2011 - 2012)

I was hired as a Project Manager for a specific project that lasted approximately six months. My responsibilities included leading a team of three people, managing the Front-End, and serving as the liaison with the client, a major TV network in Ecuador. Before concluding my role, I traveled to Guayaquil to train the content administrators.

**Tech stack:** Html | Css | Ajax | Php | MySQL | Joomla

## Lemot - San Martín de los Andes (2005 - 2008)

As a partner and co-owner of the company, I led the creative department, working for clients such as Aerolíneas Argentinas, Movistar, NeuquenTur, Gabriel Batistuta, Cerro Caviahue, Cerro La Hoya, Vía Bariloche, among others.

## Interpatagonia S.A - San Martín de los Andes (2004 - 2005)

I worked in the Design and Programming Department, contributing to the [interpatagonia.com](http://interpatagonia.com) and [welcomeargentina.com](http://welcomeargentina.com) portals, and also developing websites for the company's clients.

**Tech stack:** Html | Css | Js | Flash | Php | MySql | Photoshop | Illustrator

## Teaching Experience

I worked as an instructor for prominent training centers in Buenos Aires. Notable ones include Image Campus and Exo Training Center.

I was also a Co-Founder and Coordinator of the "Macromedia User Group of Argentina," a community that grew to over 9,000 members.

Additionally, I have extensive experience as a speaker and presenter at various seminars on Web Design and Technology.
